Left Side Shelf Removal

Remove 3 screws from the underside of the left side shelf and 2 screws from inside the bowl assembly.
Control Panel Removal

Remove 2 screws to release the control panel and pull the control panel away from the grill.
Module Removal

Disconnected the wires from the module, remove the cap, ring, and battery. The module will disconnect from behind the control panel.
Attach Module

Install the new module, attach ring, battery, and cap. Reconnect the wires into the module.
Attaching Control Panel

Install 2 screws to attach control panel to the firebox.
**Attaching Left Side Shelf**

Install 3 screws from the underside of the left side shelf and 2 screws from inside the bowl assembly.
